Debriefing Requirements for [REDACTED]  
(ORR 10504)

① March 1957

files

1. Photographs taken of possible electrical or electronics production plants or radar installations. Locate plants in photographs.
2. Information about the existence of radar producing plants. Such evidence would be antennas or sets on top of roofs, stored on the ground or in vans. Describe the antennas and radar sets.
3. Describe location of possible electronics, electrical and radar-producing plants, size of plants, number of buildings. In general, electronics plants have the appearance of light manufacturing plants.
